are often painful and decidedly damaging to weak eyes. More people suffer this way than most others imagine.

IT'S OUR BUSINESS as practical opticians, to supply glasses for such sensitive eyes. It's your business if your eyes come under this list, to have them attended to. It's dangerous to experiment. We supply glasses for weak eyes, strong eyes, old and young eyes, and warrant all we sell.

For safety, kindly remember and patronize us.

That it is the duty of every working man and woman to save a little of their wages every week is as plain as day. And it seems strange that it is necessary to argue about it. Nobody is always going to be young and strong and healthy. Old age and sickness and bad luck are sure to come some day.

With these facts staring one in the face why is it that anybody hesitates, when with one dollar a bank account can be opened with

UNCLE SAM

Has Much Trouble With His Chimney Draughts.

Washington, D. C., June 18.—The private home dweller is not the only one who has trouble with his chimney draughts. Uncle Sam has been bothered for years over those at the capitol buildings. The huge dome caused the air to sweep in eddies. The contract has been awarded to B. F. Sturtevant & Co. of Boston for the removal of the chimneys and the placing of piping to center in one spot. A huge fan will answer the double purpose of drawing the smoke out and sending it into the air with force.

The cost will be \$10,000, but it is believed smoking chimneys will be abolished.
